Gazelle

Since 1892

More than ever, we believe that cycling makes the world a better, healthier, and more enjoyable place. So, for us, cycling is the obvious choice for rides in the city and beyond. We do everything so that nothing stops you from choosing the bike more often.

Every day, we create the most comfortable bikes filled with clever innovations and a striking design. Bikes made by professionals, designed based on cyclists' experiences. Just as we have been doing for over 130 years.

Find out more at gazellebikes.com/en-us

We constantly optimize our product range. You can find our latest range at **gazellebikes.com/en-us**. There you will find up-to-date prices and a Gazelle store near you.

The highest quality

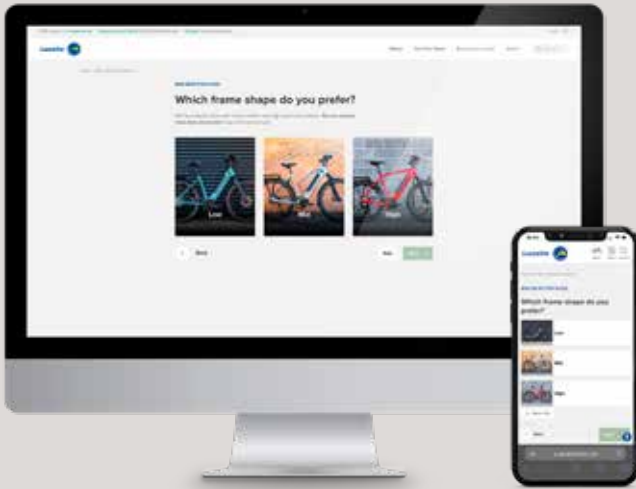

Gazelle has been producing bikes since 1892. So we have all the knowledge and innovation we need to make the very best bikes. We only employ experienced fitters to assemble our bikes at our Dutch Innovation and Production Centre. Your bike will only be sent off to the Gazelle store once it has undergone extensive quality checks. So you are guaranteed the highest quality. And you can enjoy your bike worry-free.

Bike Selection Guide

Want an electric bike but not sure which one yet? Use our online selection guide. Through a series of questions, we'll help you find the perfect bike. Go to gazellebikes.com/en-us/bikeselectionguide or scan the QR code.

Our Partners

On every **product page**, there are logos indicating whether the bike is equipped with an MIK attachment system, a Bosch mid-motor, or the new Smart System from Bosch.

MIK stands for “Mounting Is Key”. This is an attachment system for accessories like a bike bag on your bicycle. Thanks to this system, you can change accessories within seconds if you have the MIK system on your Gazelle bike.

Award winning for 130 years

We have been making bikes for 130 years with a focus on quality and innovation. Every year, our ebikes win awards in various independent bike tests and earn special recognition from a wide range of publications including Bicycling, CNN, Men's Journal, NY Magazine, Popular Mechanics, and Wired.
