

Ultimate Dual Battery Kit

Two batteries, two times the range! The Ultimate bikes have been introduced specifically for commuters. These fast bicycles are equipped with a 500Wh Powertube battery integrated into the frame. Additionally, high step models can be equipped with an extra battery that clicks into place using the Dual Battery Kit, which is directly connected with the Bosch system. As a result, you can cycle twice as far with your Gazelle Ultimate. The Bosch PowerPack 500Wh frame-mounted battery connects directly with the Bosch system. In combination with the integrated PowerTube 500Wh battery, these bikes have 1000Wh at their disposal. As an added bonus, the charge status of both batteries is visible on the bikes' displays.

Dual Battery Kit-Eligible Ultimate T10, T10+, C380, C380+ Bicycles

Bike	Frame	Size	Dual Battery Kit SKU

Important comments/FAQ

General

- The Ultimate Dual Battery Kit is not supplied with the above models; this needs to be ordered by your Gazelle Dealer
- Gazelle advises and facilitates the use of the Ultimate Dual Battery in combination with a 500Wh PowerPack frame battery.
- The Ultimate Dual Battery Kit can not be mounted on a Mid Step frame.
- During charging, both batteries are charged at practically the same time. During cycling, both batteries are used at the same time.

Ordering

- The Dual Battery Kit Ultimate can be ordered as part under number(s): **998812000** and **998812100** by Gazelle dealers
- The Ultimate Dual Battery Kit is supplied without a Battery. The associated battery is Bosch PowerPack Frame 500Wh. This needs to be ordered separately by your dealer.

Mounting on the bicycle

- The Gazelle dealer should mount the Dual Battery kit on the bicycle and connect it to the motor system in order to prevent malfunctions on the motor system. Additionally, the guarantee is only valid for the BOSCH system if the mounting has been carried out by an authorized Gazelle dealer.
- Carefully read the mounting instructions supplied with the Dual Battery kit.
- Once the Ultimate Dual Battery kit has been connected correctly, the Bosch system will recognize this automatically; the status of the second battery is then also visible on the display.

Wholesale & Suggested Retail Price

- MSRP \$149.00 (bracket only)
- Advised MSRP \$999.00 (complete set incl. 500Wh battery)
